OBJECTIVE

Highly motivated Electronics and Communication Engineering undergraduate seeking an entry-level opportunity in a performance-driven organization. Ambitious and hardworking, with a strong willingness to learn, take on challenges, and contribute effectively while earning management's trust

SKILLS

Programming Languages: Java, Python

Frontend: HTML, CSS, JavaScript

Backend / Platforms: ServiceNow, Workflows, ACLs

Tools & Technologies: Git, GitHub, Xilinx Vivado, NI Multisim

Core Subjects: OOPS, DBMS, Wireless Communication

PROJECTS

Optimizing Roles, Users, and Groups with Workflows and ACLs

ServiceNow

- Enhanced **access control security** using roles, ACLs, and automated workflows.
- Implemented efficient **user-role management** to improve system governance.

AI-Assisted Channel Estimation for MIMO Systems (5G/6G)

Python, AI Models, Wireless Communication

- Built an **AI-based channel estimation model** for MIMO systems to improve CSI accuracy.
- Improved **signal-to-noise ratio (SNR)** performance for 5G/6G wireless networks through simulation analysis.

INTERNSHIP

Mobile Communication Intern – BSNL

June 2025 – July 2025

Telecom Infrastructure

- Gained hands-on exposure to **mobile communication systems** and telecom infrastructure.

Embedded System Developer (Virtual Internship)

Apr 2024 – Jun 2024

Microchip Technology & AICTE

- Worked on **embedded systems development** and microcontroller programming.
- Strengthened hardware-software integration and debugging skills.

ACHIEVEMENTS

- **ServiceNow Certified System Administrator (CSA).**
- **ServiceNow Certified Application Developer (CAD).**
- **Employability Skills Certification** — Wadhvani Foundation.

EDUCATION

Srinivasa Ramanujan Institute of Technology

2022 – Present

B.Tech – Electronics and Communication Engineering, CGPA: 7.49

India

Narayana Junior College

2020 – 2022

Class XII – Board of Intermediate, 76%

India

Montessori English Medium High School

2019 – 2020

Class X – Board of Secondary Education, 96%

India
